Our Mission:
To Support, Educate, and Empower Cancer Patients and Their Families
Dear Friends of Gilda’s Club,

For 22 years we have been providing our free comprehensive cancer support program to cancer patients and their families to help them navigate their cancer journey – whatever the outcome. We are proud to report an impressive year of growth at 24%, reaching over 12,000 cancer patients and their families in 2017.

It is your generosity that has enabled us to reach our goals, enrich our cancer support programs at both our signature Clubhouse and hospital partners, expand our support to the Latino community in New York City, renovate our entire 2nd floor including our four support group rooms, and implement new diagnostic and measurement tools to quantify the impact we are making on the lives of cancer patients and their caregivers.

In their latest report, Delivering High-Quality Cancer Care, the Institute of Medicine (IOM) projects that by 2022 the number of cancer survivors will increase by 30% and by 2030, the incidence of cancer will increase by 45%. Further, they confirm what we at Gilda’s Club have always known – from the moment a patient is diagnosed, psychosocial support for both the patient and their family must be a major component of their medical care. With the rising prevalence of cancer, it is imperative that we continue to grow to support this need for our program in the cancer community.

Your generous support has been an integral part of our ability to serve women, men, teens and children living with cancer in New York City. It is your funding that enables us to offer support groups, educational lectures, healthy lifestyle workshops and social activities 100% free of charge. As our valued donors, you have truly helped to make a difference for thousands of people living with cancer. We believe no one should face cancer alone. Thank you so much for your continued commitment to Gilda’s Club New York City.

Laura J. Bartlett
Chair of the Board of Directors

Lily Safani
CEO
THE NEED FOR our services

Living with Cancer

The latest Institute of Medicine (IOM) Report Delivering High-Quality Cancer Care: Charting a New Course for a System in Crisis provides stark information on why the need for Gilda’s Club NYC will continue to grow. In particular, the IOM reports that we will continue to see both an increasing number of cancer survivors and a steep increase in the incidence of cancer through 2030.

• By 2022 there will be a 30% increase in cancer survivors
• By 2030 the incidence of cancer will increase by 40%

The good news is we are living longer with cancer, the bad news is that more people will be diagnosed with cancer in the coming years.

18 Million Cancer Survivors
Projected in 2022
From Institute of Medicine

Margie

“I came to Gilda’s because I didn’t know anyone that was going through cancer or had been through cancer. My family and friends were and have been supportive but I needed to be understood. **Gilda’s Club is a safe haven.**”
What’s Most Important in Cancer Care

The IOM identified 5 key areas that are important from the moment a patient is diagnosed with cancer:

- Care Planning
- Psychosocial Support
- Prevention and Management of Long Term and Late Effects
- Family Caregiver Support
- Palliative Care

_Gilda’s Club plays an important role in the cancer care continuum for both cancer patients and their families._ We provide psychosocial support for the entire family through support groups, educational lectures, and healthy lifestyle workshops. At every stage of an individual’s cancer journey, GCNYC is a cancer resource that is available to them.

**At Gilda’s Club we believe no one should face cancer alone.**

---

**Laurie**

“When I was diagnosed, I knew I needed a support group because my head was spinning with information overload. Now my weekly Wellness Group is support, comfort and family. **We encourage each other every step of the way.**”
Connect4

Connect4, a cloud-based member database and registration system, was introduced in November to ease data entry, check-in process, registration of classes, and most importantly, to improve tracking and reporting of our members.

“Using the (scan) card has made it easy to register for classes and verify registrations. I appreciate the change from waiting in line to fast, speedy service with a smile.”
– Inez

Jessilyn

“As Gilda’s Club receptionist, Connect4 allows me to be more efficient and productive. Now I can accurately collect, track and report on member level of activity. Also, members have expressed a higher level of engagement with program activities due to being able to independently navigate the member portal online.”
Cancer Support Source

Gilda’s Club NYC now offers a distress screener as part of the membership process for cancer patients and caregivers.

The Need

• More than half of those diagnosed with cancer report psychosocial distress
• Four in ten cancer caregivers want more help to manage their own emotional and physical stress

In 2016, GCNYC piloted the CancerSupportSource® distress screener for cancer patients and in 2017, launched a distress screener for caregivers, an underserved population.

Evidence-based research of early identification of emotional stress and follow-up treatment for patients and caregivers has indicated:

• Decrease in depression
• Decrease in mood disturbance and psychiatric symptoms
• Improvement in coping, cognitive and emotional outcomes
• Improvement in quality of life

Migdalia

“The CancerSupportSource® not only identifies level of distress, it also provides information and resources to help people reduce the distress that cancer brings into their lives.”
Our FREE comprehensive cancer program includes support groups, educational lectures and healthy lifestyle workshops for everyone impacted by cancer – men, women, teens and children.

Lilliana & Catalina

“The first word that comes to mind when I think of Gilda’s Club is joy, and the joy that I see through my child. She’s here bouncing and talking and being a little silly, but that’s part of her joy of being part of a community that understands her; with people that have gone through similar situations and kids that have been in similar situations.”
Support Groups, Healthy Lifestyle Workshops, Educational Lectures

Support Groups are facilitated by licensed mental health professionals and provide an opportunity to meet with others, and share wisdom and firsthand experiences. We offer a range of groups to meet the specific needs of our members. Healthy lifestyle workshops in stress reduction, body movement and creative expression are offered to enrich well-being and promote self-discovery. Educational lectures provide access to valuable information including medical, legal, financial, and other cancer specific topics.

796 annual support groups
565 annual workshops
34 lectures

Harvey

“All anyone who is diagnosed with cancer – I don’t care what the age is – it affects you emotionally like you can’t believe. My friends at Gilda’s Club better understand what I’m going through, how I’m dealing with it. I don’t know how I could have survived without Gilda’s Club.”
Gilda Comes to You

In order to reach more New Yorkers affected by cancer, GCNYC provides cancer support programming at select medical centers throughout New York City. This way, cancer patients can get their medical treatment and have access to our free cancer support program all in one place without having to travel.

192
support groups

75
workshops/lectures

Margarita

“The group that I’m in [at Kings County Hospital Center], a lot of the people are not from here – they come from different countries and they are only here because of the treatments. And some of them really don’t have ways to pay for this service. And thank God this is going on because a lot of people would not be able to take advantage of this.”
Our program for children and teens continues to grow and reach new families who have been impacted by cancer. In addition to our weekly Noogieland (support) program for children ages 5-12, Club Sparkle increased programming from half-day week long sessions to full-day sessions in April, July and August.

**Spotlight: Kids’ Bereavement**

Kids’ Bereavement was a 10-week program offered in June thanks to a grant from RBC Capital Markets. Thirteen children between the ages of 5-12 who were grieving the death of a loved one to cancer participated in the program. **Kids’ Bereavement utilized bibliotherapy, psychoeducation, discussion, art & other expressive activities to help children feel safe to ask questions, express difficult feelings, and share common experiences around cancer & death.**

At the close of the ten weeks, the children opted to join our weekly Noogie Night, an ongoing Bereavement Support Group for children offered at Gilda’s Club NYC, to continue receiving support.
Amigos Unidos

For over 15 years, GCNYC has been providing support to the Latino community. More recently, our commitment has grown and our Spanish support program has expanded to meet the needs of this community.

• We hired bilingual staff – from our receptionists that speak Spanish to our mental health professionals that deliver our program, and our patient navigators at our hospital partners.

Eldy

“Hay muchas dudas a veces en nuestras mentes, muchas preguntas, de hechos que no conocemos y a través de estas lecturas educativas nos ayudan a contestar estas preguntas y dudas. La información que nos dieron no solo me va a ayudar a mí, sino que yo voy a poder ayudar a otros.”

“There are many doubts at times in our minds – many questions and facts we don’t know – and these educational lectures help us to answer these questions and doubts. This information won’t just help me, but it will help me to help others as well.”
Reaching the Latino Cancer Community

- With increased government funding, we have been able to expand our Spanish programming to include weekly and monthly support groups, eight educational lectures, and ten healthy lifestyle workshops – at our Clubhouse and our hospital partners.

- We now offer a comprehensive cancer support program that is culturally sensitive to the unique needs of the Latino community including an educational series on topics ranging from “Legal Rights” and “Spirituality and Cancer” to “Every Bite Counts” and “How to Apply for Emergency Medicaid.”

Shirlene

“Estoy agradecida por este taller hoy porque me ayuda mucho entender la ayuda que pueden darme en mi situación con mis biles médicos y mi situación con mi cuenta de crédito en el tiempo de mi diagnóstico de cáncer.”

“I am grateful for the workshop today because it helped me to understand the help they can give me with my medical bills and my situation with my credit in the time since my diagnosis of cancer.”
COMMUNITY of supporters

Our programs are 100% free thanks to you, our generous donors.

The Red Door Society honors major gift donors who contribute $2,500 or greater, during the calendar year (January 1 – December 31).

### 10th Annual Celebrating Women Luncheon

May 10, 2017, The Metropolitan Club

Our annual luncheon featured Keynote Speaker, Gerri Willis, Fox Business Network Anchor and Personal Finance Reporter, and cancer survivor. Honored were Dr. Vicki Goodman, VP & Developmental Lead for Opdivo/Yervoy, Bristol-Myers Squibb and Beth Meagher, Principal & Leader, Federal Strategy, Translational Medicine and Health Non-Profit Practices, Deloitte Consulting LLP, for their outstanding work in the cancer community.

“I have been Luncheon Chair for the past seven years and it has been an honor to participate in this event and meet so many accomplished women.”

The Gildie Awards March 30, 2017, Webster Hall

The Associate Board held its annual fundraiser at Webster Hall with more than 250 guests enjoying an evening of silent auction, raffles, food by Pinch Food Design, open bar, and music by DJ Vida and Temporary Grace. Cristina Cote, graciously hosted the event. Honorees included Mailet Lopez, CEO & Founder, IHadCancer.com and Co-Founder & Managing Director, Squeaky and, posthumously, iconic lead singer, Sharon Jones, of Sharon Jones & the Dap-Kings.

“Events like The Gildie Awards are a great reminder that hundreds of young people in New York are passionate about things so much bigger than they are as individuals, and help prove that the power of many is greater than the power of one.”

– Neil Heckman (right), Associate Board Chair
