**SPECIAL EVENTS**

A number of Red Door Community social activities are offered during the year for kids and their families including our Family Fun Nights, and our annual Halloween and Winter Holiday celebrations. These events allow for families to socialize and bond with other families going through very similar experiences living with a cancer diagnosis or loss. Our special events for children, teens and families are highly anticipated and provide a rich sense of community.

**Our Youth Support Program**

**For Children & Teens Living with Cancer**

Our program offers opportunities to minimize the feelings of isolation by socializing with others who “get it” and participating in discussions, and interactive workshops.
